CARMACK'S DEATH IS DEPLORED AND STAND ENDORSED

Methodist Conference at Covington Adopts Strong Resolutions Today.

All Ministers Passed and Committees Working.

DR. SULLIVAN IS PREACHING

Covington, Tenn., Nov. 13. (Special.)—Resolutions deploring the death of Senator E. W. Carmack, extending condolence to his widow, and pledging the conference to stand steadfastly to the principles for which the late senator stood in state affairs, were unanimously adopted by the Memphis conference of the Methodist church in session here this morning. The resolutions were lengthy and unequivocal.

The morning session commenced at 8:30 o'clock and the Rev. J. H. Witt led in prayer. Characters of the remaining pastors were passed, and the following young men were made deacons: I. N. Drake, C. P. Sellers, E. W. Maxedon and H. L. Johnson.

Bishop Lane, of Lane (colored) college, of Jackson, addressed the conference in behalf of the institution.

This afternoon the Rev. G. T. Sullivan, of Broadway Methodist church, Paducah, is delivering a sermon at the Methodist church.

Tonight the anniversary of the board of missions will be celebrated and the Rev. J. E. Jones, of South Covington, and the Rev. Mr. Scruggs will preach.

All reports showed the church gaining ground everywhere. The committees are progressing rapidly with their work.

Captain Brown Bailiff.
Owing to the rush of business in preparation to the approaching session of federal court, Elwood Neal, deputy United States marshal, has appointed Captain Wade Brown special bailiff in the Rehkopf bankruptcy case. Marshal Neal went to Hopkinsville this morning to serve subpoenas.

All Go Duck Hunting.
Duck hunting is a popular diversion with the railroad employees, and every spare day is put in with the guns. Quite a few crack shots are employed in the shops, and at the expiration of the game law tomorrow many parties will be made up for hunting. Harry Cox, Will Kenzie and Lou Metcalf went duck hunting yesterday up the Ohio river and bagged several birds.

Laporte Murder Trial.
Laporte, Nov. 13.—The prosecution began evidence in Lamphere's trial. Coroner Mack, the first witness, described the bodies found in the burned home. Four bodies were under debris. There was a hole in the head of one child. The woman's head is missing. The coroner's memory was poor and he made a weak witness.

State Revenue.
Monday will be the last day for the payment of state and county taxes by delinquent property owners, and in accordance to the law. Mr. W. M. Husbands, state revenue agent, will begin the sale of the property. His office has been crowded since the advertising of the property, and he will keep his office open Saturday night to accommodate the property owners. He has received several large checks from large property owners, who after consulting attorneys, found that payment was the only way out of the difficulty.

FAIR.
Generally fair and continued cool tonight and Saturday. Highest temperature yesterday, 46; lowest today, 29.

China's Puppet Emperor Succumbs to Long Attack of Illness Report Circulated in Pekin--Was Insane

On Account of Fear Occasioned by Serious Illness of Dowager Empress, Report is Denied—Little Excitement.

Pekin, China, Nov. 13.—It is reported Emperor Kuang Hsu died in the imperial palace this morning after an illness of many months. It lacks confirmation and occasioned little excitement, as the expected details were not given to the public. His death is still denied in some quarters, fearing the effect on the people in view of the serious illness of the Dowager Empress, the real ruler. The emperor was 37 years old and ascended the throne in 1875, succeeding his cousin, Tung Chin. Although it is not generally known, he has been mentally unbalanced a long time. It is announced that Prince Chun will be regent for son, Pu Wei, half presumptive. This is considered as confirmation of the emperor's death.

MRS. KANSAS GRIGGS DIES AT HER HOME NEAR BENTON.

Mrs. Kansas Griggs, 31 years old, died at 5 o'clock this morning at her home near Benton, after a lingering illness of consumption. Mrs. Griggs was a member of the New Hope Methodist church. She is survived by her husband and three children. The funeral will be held tomorrow afternoon at 3 o'clock at the New Hope church, Marshall county. The burial will be at the New Hope graveyard.

There's a Young Cortelyou.
Washington, D. C., Nov. 13.—Mrs. George B. Cortelyou, the wife of the secretary of the treasury, gave birth to a son.

Federation in Politics.

Denver, Nov. 13.—Raymond Robins, a friend of Gompers, told the Federation of Labor that a convention of laboring men must get together and formulate a political policy to fight to the end. This is considered the formal announcement that the federation hereafter will take an active part in politics.

Bakers Verdict Stands.

Frankfort, Ky., Nov. 13. (Special.)—The case of the Paducah Traction company vs. Mrs. Rosa Baker, in the McCracken county circuit court, was affirmed today by the court of appeals. Mrs. Baker was injured in a street car accident, and in the circuit court was given a verdict of \$1,750.

COL. JOE POTTER MENTIONED FOR BOARD PRESIDENT

When the new board of aldermen is organized there are certain to be three names voted on for president. Alderman Ed D. Hannan, who is president of the present board, and who has mayoralty aspirations, Col. Joseph E. Potter and Alderman Virgil Sherrill will be candidates. Friends of Councilman Ernest Lackey, who is president pro tem of the council and was alderman, started a boom for him, but he put a quietus on it. Anyway, the race between the three will be interesting for the position of mayor pro tem.

BEGGAR REFUSED DIRTY VEST THAT CONTAINED CRISP \$100 BILL IN A POCKET

Had it been known that an old vest of Chris Berger, a grocery dealer at Seventh and Ohio streets contained a neatly folded \$100 bill in one of the pockets there would have been plenty of people willing to accept the garment as a gift. However, the presence of the bill was unknown, and an old darkey wore the vest several days, and returned it because he considered it too well worn to keep. The money had been in the vest for six months, and had not been missed by Mr. Berger until yesterday afternoon when he found it.

When the warm spring days arrived Mr. Berger found his winter vest well worn, but too warm for May. So he took it off and placed it in his meat house.

TOBACCO SCHEDULE.
Washington, D. C., Nov. 13.—The ways and means committee will begin hearings today on the tobacco schedule of the new tariff bill. A large attendance of persons interested in the duties on tobacco, cigars, cigarettes and snuff is expected from Kentucky, Tennessee, Virginia, North Carolina, Connecticut, Ohio, Florida, Texas and other states. The hearing will probably continue for at least two days.

In Police Court.
The docket in police court this morning was: Violating the Sabbath—Charles Speck, dismissed. Obtaining money by false pretenses—Ray Balleis, dismissed. Breach of peace—Luke Roberts, \$20 and no costs. Breach of ordinance—Harry Leonard, Mat Murphy and William Booth, 10 days in the county jail each.

Flue Fire Today.
A small fire about the flue at the home of George Garrett, colored, 1212 South Eighth street, was discovered today at noon. Hose wagon from station No. 2 and the truck from station No. 4 answered the alarm, but the damage will amount to only a few dollars.

Balleis Was Innocent.
The case against Ray Balleis, a young man charged with obtaining money by false pretenses, was dismissed this morning in police court. Balleis was alleged to have sold a pair of boots that had been stolen, but Balleis convinced County Attorney Allen Barkley by witnesses that he was innocent of the charge, and he was dismissed. Balleis had owned the boots over six months.

High School Recognized.
Prof. W. A. Evans, coach of the football team, the football players and all the students were all smiles today. It was all because the High school football team has made a reputation sufficient to be challenged by the Wendell Phillips High school team, of Chicago, for a game here Thanksgiving Day. The Wendell Phillips High school has not lost a game this season and has a perfect average in the Cook county athletic football league. Having cleaned up everything in the county, the Chicagoans were hungry after Kentucky meat.

However, the game can not be accepted despite the fact that the Chicago manager wrote that the date would be held open until an answer from Paducah was received. High school will play the Madisonville High school eleven at Madisonville Thanksgiving Day. From word that has been received in the High school camp the game will be one of the hardest of the season, as Madisonville is smarting under the defeat of several weeks ago, and Madisonville called off the game with Hopkinsville in order to have all of the players in perfect trim for Paducah.

Carl Leigh, an old High school quarterback, has played the same position on the Wendell Phillips team.

On Country Life.

Washington, Nov. 13.—Roosevelt's commission on country life will start on its western tour next week to secure data on conditions. They will visit various agricultural colleges. The tour includes Dallas, November 20 and 21, El Paso November 22 and 23. They will visit all the south-western and western states.

Now he remembers distinctly how one afternoon he took the \$100 bill and several checks and placed them in his vest pocket and went to the bank. The bank was closed, but he was admitted, and he made the deposit of the checks. Being in a hurry he forgot to take out the crisp bill. Several days later he stored away the vest.

An old negro asked for clothes and Mr. Berger hunted up the vest and presented it to him. He wore it for several days, but returned it to Mr. Berger, saying it was too dirty. That was the last thought of the garment until yesterday when Mr. Berger went into the meat house and he spied the vest. He happened to feel in the pockets, and found the money.

ALL NIGHT RIDER CASES GO OVER TO APRIL TERM, 1909

Set For Seventh Day in Order That Other Business May be Disposed of.

Both Sides in Primary Contests Ask Recount.

CALLOWAY TURBULENT AGAIN

Murray, Ky., Nov. 13. (Special.)—All the night rider cases have been continued until the April term of the Calloway circuit court. As that term is a three weeks' term, the cases were set beginning the seventh day in order that all regular business before the court may be transacted.

Primary Contests.

Murray, Ky., Nov. 13. (Special.)—With both sides in the recent contest for county officers, asking a recount of the ballots cast at the primary November 3 and three candidates prosecuting contests, Calloway county is again in a stew over local politics and there is enough interest to satisfy the most exciting.

After the candidates who were defeated on the face of the returns, had filed petitions asking for a recount of the precincts in which the victors received their largest majorities, the successful candidates retaliated by filing petitions with the county chairman, asking a recount in the precincts, where their opponents had a majority. Consequently the ballot boxes in ten precincts will be opened and the ballots again counted.

The defeated candidates ask a recount in West Murray, North and South Swann, Jackson, Fair and two other precincts. The successful ones want a recount in Almo and in North and South Liberty precincts, in which section the night riders abide.

Notices of contests were served at noon today on Walter Holland, who was given a certificate of nomination for the office of sheriff, by W. A. Patterson, while D. J. Alexander contests the nomination of E. P. Phillips for county judge and J. K. Matheny the nomination of Joe Lancaster for circuit clerk.

Workers on both sides were busy until 12 o'clock last night getting up petitions for the recount, the time in which such a request could be made expiring at that hour.

RELATIVES RIOT TO PREVENT MINE BEING FLOODED

Hamm, Westphalia, Nov. 13.—There is serious rioting at Radbod mine. Relatives of the entombed miners attempted to prevent mine officials from flooding the mine to extinguish the flames, believing some victims might be alive. Rioters stormed the mine property and demanded another attempt at rescue. Troops were called out and the mine is being flooded. It is expected the death list will total nearly 350.

Louisville Market.

Louisville, Ky., Nov. 13.—The Kentucky warehouse sold 24 hogheads of burley at \$13.25 @ 19.00, and 3 hogheads of dark at \$5.95 @ 6.30.

The Ninth street warehouse sold 26 hogheads of burley at \$13.00 @ 18.75.

The People's warehouse sold 13 hogheads of burley at \$9.10 @ 16.75, and 2 hogheads of dark at \$6.50 @ 6.60.

The Dark warehouse sold 15 hogheads of burley at \$9.70.

The Planter's warehouse sold 32 hogheads of burley at \$14.75 @ 19.75, and 1 hog head of dark at \$6.30.

The Central warehouse sold 14 hogheads of burley at \$5.95 @ 8.20.

The Farmers' warehouse sold 35 hogheads of burley at \$13.75 @ 19.25.

The Pickett warehouse sold 31 hogheads of burley at \$14.00 @ 21.50, and 15 hogheads of dark at \$6.30 @ 19.75.

The State warehouse sold 24 hogheads of burley at \$14.00 @ 19.25.

Balloon Appropriation.

Washington, Nov. 13.—Popular interest in aeronautics has encouraged the signal corps to ask congress for a half million for experiments. It is proposed to establish a permanent dirigible balloon station, enlarge a balloon plant at Omaha and establish a balloon corps. It will make the balloon service a permanent feature of the army.

Seven Million Dollar Deal is on Between American Tobacco Co. & Burley Society for Pooled Crops

Negotiations on at Louisville Today For 60 Percent of 1906 and 1907 Holdings at Market Price, \$15.

Louisville, Nov. 13. (Special.)—Negotiations are on here today between the Burley Tobacco society and the American Tobacco company for the purchase of 60 per cent of the pooled 1906 and 1907 crops of burley at market price, an average of \$15. The amount involved would be over \$7,000,000. A final decision is to be reached this afternoon. Lobis and prominent local officials of the tobacco trust are conferring.

Rehearsal for "The Mistletoe Bough."
All the members of "The Mistletoe Bough" cast are requested to kindly attend a rehearsal at the Kentucky Saturday morning at 10 o'clock. A matinee performance will be given at 2 o'clock tomorrow afternoon.

To Entertain Senior Class.

Miss Alice D. Foster will entertain the B. Senior class of the Paducah High school tonight at her home in the Smith flats, on South Fifth street.

Saved From the Gallows.

Shawnee, Okla., Nov. 13.—Will Johnson, a negro murderer, was saved from the gallows an hour before his execution time. Friends secured habeas corpus writ from Federal Judge Cotterall. Johnson murdered Mrs. Samuel Cuppy, and was three times convicted. He narrowly escaped lynching after the murder.

Illinois Couple Marry Here.

Miss Eva McKenzie and Mr. Charles J. Huffman, both of Vienna, Ill., were married yesterday afternoon at the parsonage of the Broadway Methodist church. The ceremony was performed by the Rev. G. T. Sullivan, pastor of the church. The couple are prominent young people of Vienna and came here in order to have a quiet wedding. They returned home last evening.

In Circuit Court.

Damages to the extent of \$100 were given to Mrs. Lou Osban, who sued Mrs. M. Byrd for \$2,000 for slander. This was the second trial. In the first trial the jury failed to agree. The verdict was returned this morning. The case was an interesting one, and many spectators heard the evidence. The trial of R. N. Christian against the Paducah Co-operative company was on trial today in circuit court. Christian sued for \$400 as the result of a controversy over the delivery of some timber.

TRANSFER BOAT LET OFF.

The big Illinois Central transfer boat, John Bertram, which has been on the Paducah marine ways for several months, was let in the river yesterday afternoon. The Bertram has had repair work done to all parts of her and is now in the very best of condition.

Charity Funds.

At a conference this morning between Mayor James P. Smith and County Judge R. T. Lightfoot it was decided for the city and county to act together this winter in the relieving of charity cases. The funds from both the city and county for charity work will be under the direction of the Charity club and expended through City Buyer Miller, who is also secretary of the club.

World Against Root.

New York, Nov. 13.—The World began a fight against Root for senator and prints a long article on "Root, Ryan's Lawyer," attacking Root's corporation connections. It reviews his connection with Boss Tweed, Croker, Ryan, W. C. Whitney and Harriman. It quotes Harriman's letter saying Root engineered Ryan's successes. It refers to Morse and says Root contrived practically the same offense in connection with the Old State Trust company. It declares Roosevelt, when governor, suppressed the report of the state superintendent of banks which revealed the fact.

FOOTBALL PLAYERS ACCUSED.

Evansville, Ind., Nov. 13.—Charles Daugherty, a professional pugilist, has sworn out warrants for the members of the local and Henderson, Ky., football teams, charging them with manslaughter, because his brother was killed in a game. Daugherty proposes to establish a national crusade to make football players responsible for injuries.

GOLD HUNTERS IN PANAMA ATTACKED BY WILD INDIANS

New York, Nov. 13.—Baron F. B. von Teuber was a passenger on the royal mail steam packet liner Magdalena, which arrived from West Indian ports. He is the first to return here of an expedition which left this port several months ago in search of gold and anthracite in a region of Panama lying north of the canal zone and extending for some distance across the isthmus. According to the story which he told, the party had an adventurous experience. The expedition was headed by himself. With him were his brother, Carl von Teuber, and three mining engineers, Fredrick Smith, Peter Bartlett and John Bradley.

Indians Hostile.

"We procured two Indian guides and started north from Colon," said Von Teuber. "The Indians up through the territory through which we had to make our way are very hostile and we learned later that a Chinese trader had given them information that a white man expedition was on the way and that thereupon the hostile Indians had decided to kill our two Indian guides as a warning to all others not to take white men into the country."

"We had struck out from San Isabel for a journey across the mountains, on which there was practically no trail. On the night of January 20, as we lay in an improvised camp, a volley of shots was fired. I grabbed a gun and rushed out and fired at where the shots seemed to come from. Suddenly two piercing cries resounded through the air and then all was still. In the morning I found that the Indian guides had been shot dead."

Stricken With Fever.

"Not long after that Bradley was stricken with backwater fever and Smith and Bartlett were taken with malarial fever. We found that Indians were still lurking about and that our every move was being closely watched. My brother and myself decided to beat as good a retreat as was possible to the coast with the sick men. Difficulties continually beset us on the journey. We finally reached the coast and started down with Bradley in a dying condition. We did all we could for him, but he died in the boat. Smith and Bartlett were got to the Ancon hospital barely in time, but are still living."

The Baron made a later attempt to get into the dangerous territory with another small expedition, with which he started from the Pacific coast. Again, however, he was driven back by countless difficulties. He says he will make one more attempt next year, taking with him an expedition that will be large enough to put up a hard fight against any hostile tribes that may be encountered.

FIREMEN KILLED BY FALLING INTO ENGINE'S BOILER

Springfield, Ill., Nov. 13.—A double header fast Wabash freight collided with a switch engine and the three engines were demolished. Fireman Williams and Brakeman Wolf were killed. Fireman Snake was fatally hurt. Wolf was thrown onto the engine boiler and his body frightfully burned. The engineers jumped and escaped.

Installed Red Men.

Mr. L. L. Bebout and Police Judge D. A. Cross returned from Barlow this morning after installing a lodge of Red Men last night. The installation was a success, and after the ceremony the members and the Paducah Red Men had a banquet.

MONEY PROBABLY WILL BE SECURED TO PAY TEACHERS

Agencies at Work Today Effecting Arrangements For Cash.

Teachers Greatly Distressed by Situation.

SOME STRANGE STORIES OUT

School trustees will meet tonight and adopt resolutions, consenting that the American-German bank may redeem teachers' checks with the first money the school board receives. The checks then probably will be honored tomorrow.

With the trustees unwilling to again exceed what they conceive to be the exact letter of their authority in the matter of anticipating revenue, an acute stage in the Paducah school predicament has been reached. The bank authorities understand the stenciled words "when funds are available" stamped on the script issued for salaries, to mean express prohibition to create an overdraft, and after the balance on hand was exhausted the bank refused to honor the script until funds were available.

The teachers naturally are dissatisfied. Many of them actually want the money for necessities, and there is, perhaps, not one who is not seriously inconvenienced.

Some of them presented the script in payment for city taxes yesterday, but the same fatal words that stopped payment at bank, prevented the city fiscal officers from accepting the script.

Over the failure of a majority of the teachers to have their checks for last month's teaching honored, disappointment has risen, and last night two teachers handed in their resignations to Superintendent J. A. Carnegie. After consideration the teachers consented to hold up the resignations for a few days, hoping in the meanwhile that the financial difficulty may be settled. One teacher has written to her home for money, and it is understood that she will resign. Other teachers have arranged to start a private school should the money not be forthcoming in a few days.

Many of the teachers have been to summer school, and they are not financially able to go without the money. Many have board bills due, depending for pay on the checks that were given out this month. The teachers that called at the bank early yesterday had their checks cashed, but as soon as the school board's funds, amounting to about \$1,200, were exhausted payment was stopped. Several merchants cashed a few of the checks, but the majority of the teachers have only the paper marked "payable when funds are available."

Most of the teachers are in a quandary. It is true they have the "script," but unless it is acceptable in payment of bills it is worthless to them.

Some Misunderstandings.

Some odd misconstructions of civil government and fact and law have arisen throughout this controversy. A local paper published that the mayor was going to advance the money personally to pay the checks and this report was spread about the schools yesterday. Then a trustee was quoted as saying the "city refused to lend the schools the money," as if the city could lend money, or this particular city has any money to lend.

Another story is that a merchant told a school employ that the schools ought to close, and then Mayor Smith would appoint a school board pledged to reduce the salary of every teacher. Plans were on foot for an indignation meeting against the mayor before it dawned upon them how ridiculous the story was.

There never has been any conference between school trustees and city officials since the election, and the city could not appropriate any money to the schools out of this year's revenue, because there will be some overdrafts as it is, and the city has a floating debt, inherited from past administrations, to meet.

It is probable, however, that arrangements will be made over the apportionment to make severer cuttings for the schools, although it will cut deep into the financial plans Mayor Smith has contemplated for the city.

Barney Gilmore.
The attraction announced at the Kentucky on Tuesday, November 17, is Mr. Barney Gilmore in his most popular success, "Kidnapped in New York." The story of this play centers about the infant daughter of John Clark, a wealthy New York broker, living with his family at his summer home on the Hudson river, near the club house of the Manhattan Boat club, of which Mr. Clark is a member. The club also includes in its membership Jack Dooley (Mr. Gilmore's character), a newspaper man, Harry Brandon, who is serving a term of imprisonment at the Sing Sing penitentiary having been convicted of robbing the club of \$10,000 in bonds. And a Signor Mazzita, Dooley believed in Brandon's innocence but he was convicted upon the evidence submitted by Mazzita. Brandon has a daughter Mary, whom Dooley loves and befriends, securing for her the position as governess to Clark's child, Elsie. Mazzita denounces Mary Brandon to Clark as the daughter of a convict thereby obtaining her discharge and installing in her place one Birdie Bolen, who is Mazzita's accomplice, he being in reality a member of the notorious Black Hand society. The wicked governess arranges with her chief to bring the child into Central park that he may kidnap and hold her for ransom, which is done and the crime charged to the former governess Mary. The child's parents are about to pay the ransom money when Dooley, disguised as a drunken old man, rescues Baby Clark and restores her to her parents. He then proves Brandon's innocence, reveals Mazzita's true character and the story ends happily when Mary Brandon becomes Dooley's wife. Messrs. Havlin and Nicolai have given the production new scenery and costumes, for its revival, and many new and up-to-date specialties have been introduced. The cast which will be seen in support of Mr. Gilmore is an exceptionally strong and well balanced one.

FINE AUDIENCE SEES FINE SHOW

"Under the Mistletoe Bower" Makes Big Hit.

Local Talent Again Demonstrates the Excellence in Charming Piece.

REPEAT SATURDAY MATINEE

That beautiful, tragic story of our childhood, the bride who hid from her bridegroom in the cedar chest, and clamping down the spring lock, died in there and was found years afterward, identified by her wedding gown, formed the framework for a delightful evening of entertainment at the Kentucky theater last night, when local talent, under the direction of Mr. E. C. Stearnes, of New York, performed for the benefit of the Woman's club.

Bride Ethel Brooks
Groom Edwin J. Paxton
Baron Douglas Bagby
Butler Evert Thompson
Groomsman Douglas Bagby
Evert Thompson, Vincent Salvo, Fred Wade, Salem Cope, John Brooks.
Bridesmaids Philippa Hughes, Nella Hatfield, Katherine Sherman, Mrs. Godfrey, Blanche Hills, Helen Hills, Rella Coleman, Mrs. Brooks, Mrs. Paul Province, Jane Stevenson, Medley Chorus—Gladys Coburn, Martha Cope, Mildred Gardner, Helen Hills, Sarah Corbett, Nellie Grogan, Grace Hills, Henrietta Kahn, Nella Hatfield, Jane Stevenson, Mazie Frederick.

The performance concluded with the apotheosis of the bride, when, prying servants, played by Miss Helen Hills, Mrs. John Brooks and Mr. Evert Thompson, opened the chest and saw what had been hidden there 50 years, and Mr. Paxton, as a decrepit old man, shambled in and was overcome with the sight. A quick shift of scenery under cover of darkness revealed the bride in her wedding finery and youthful beauty, the vision of the old man.

During the action Mr. Thompson sang a "sleepy song" and Mr. Douglas Bagby paraphrased "So Long, Mary" in character, to the delight of the audience.

The opening scene was the castle hall decorated with bridal flowers and bells, the chorus assembled in quaint and fetching costumes. The bride and groom entered and in stately fashion saluted up and down the line, and the excellence of the training showed from the first, as the chorus went through intricate and fascinating evolutions.

Many of Paducah's best singers took part, singing the most popular airs from the latest operas with fine chorus effects, and a number of novelties in the way of grotesque dances and comic songs were introduced. The characters performing with the abandon and accuracy of professionals. The whole performance not only reflected credit on the director, but manifested the exceptional quality of the talent to be found in Paducah and the grace and beauty of her young women.

Many of the costumes showed lavish expenditure.

The audience was one of the most brilliant ever assembled in the Kentucky theater and the work of the orchestra was flawless. So great was the success that it was decided to repeat the piece at a popular price, matinee Saturday afternoon.

The Performers.

Following were the soloists and a list of the musical selections:
Soloists—Mrs. James Weille, Mrs. John Brooks, Mrs. Arthur Godfrey, of Boston; Mrs. W. C. Gray; Misses Ethel Brooks, Maymie Dryfuss, Anne Bradshaw, Nella Hatfield.

Bride—Miss Ethel Brooks sang "Absent."
"Toast to the Moon," from "The Mayor of Tokio," was sung by Miss Anne Bradshaw.

"The Glow-Worm" and "Life is a See-Saw," from a "Knight for a Day"—Miss Maymie Dryfuss.

"The Fairest Flower of All," All Wilson's new song, and "Swinging"—Mrs. James Weille.

"Beautiful Isle of Bon-Bon," from the "Gingerbread Man"—Miss Nella Hatfield.

"O, You Pretty Monkey," "When the Moon Plays Peek-a-Boo" and "Sing Clogs Simizen"—Mrs. John Brooks.

"J'aimais de la Vie"—Mrs. Godfrey.

"Some Day" (Kaiser)—Mrs. W. C. Gray.

Duet from "The Red Mill," "You Never Can Tell About a Woman"—Mrs. Godfrey and Miss Helen Hills.

The glowworm was represented by Miss Blanche Hills and a string of fair maidens carrying lights. When Mrs. Godfrey sang "J'aimais de la Vie" six girls represented French dudes. They were: Miss Blanche Hills, Nella Hatfield, Rella Coleman, Jane Stevenson, Gladys Coburn, Helen Hills, Grace Hills and Lillie Hobson.

The following composed the cast: Young Women's Dance—Messdames Paul Province, Arthur Godfrey, of Boston; John Brooks, Misses Ethel Brooks, Philippa Hughes, Nella Hatfield, Katherine Sherman, of Michigan; Jane Stevenson, Lillian Hobson, Rosebud Hobson, Elsie Hodge, Maymie Dryfuss, Blanche Hills, Helen Hills, Anne Bradshaw, Marjorie Loving, Robbie Loving, Hazel McCandless, Olga List, Rella Coleman, Barnard.

ECZEMA CURED BY SIMPLE OIL

Tender Skins of Children Soothed by a Mild Liquid Compound.

Have you ever tried a few drops of an oil of wintergreen compound for skin trouble? It is the basis of a liquid compound which seems to be about the only safe and sure cure for eczema, salt rheum, tetter, ringworm and kindred diseases.

The liquid is so mild that it is used with wonderful soothing effect on the tender skins of infants.

To prove efficacious, the oil of wintergreen must be mixed with thymol and glycerine, as in the prescription of Dr. D. D. Dennis, the Chicago skin specialist. The compound is known as D. D. D. Prescription. Use with D. D. D. Soap it appears to be infallible.

A. J. Brand, 1128 Joliet street, New Orleans, La., writes:

"About five years ago when my daughter was about three months old she had eczema very badly. Her neck was one solid mass of sores, and we tried everything possible to relieve her, but to no purpose. The doctor we called said that he could cure her but that it would take at least two years to do so and on account of her age we surely thought that her pain would kill her. We began using D. D. D. Prescription and after using two bottles she was as well and happy a child as you can see and with no mark or scar on her skin."

"My youngest daughter, now two years old, started the same way with a sore neck about six months ago. We did not lose any time in applying D. D. D. and it needed only a few applications to heal her neck. I also use D. D. D. after shaving with beneficial results."

As far as we have seen, the cures with oil of wintergreen as used in D. D. D. Prescription are permanent cures. And we certainly do know that the instant D. D. D. Prescription is applied to the skin, the itch is relieved. A few drops takes the itch away at once, cooling and refreshing the skin.—R. W. Walker Co.

Representative New York bankers are on a trip through the south, although not similar to the visit of the Chicago delegation. The bankers are out to get the strong points of the cities in the south, and when an opportunity is before them a factory may be located at a point of advantage.

Other Factories.
Promises have been made to Secretary Fowler that representatives of a glove and mitten factory, and a pressed brick factory will be in the city in a few days to consider the location of two new plants in the city. While they are in the city the members of the Commercial club will discuss the possibility of locating the factories here.

A large company in Denver, that

INDUSTRIES

MAY COME TO PADUCAH IF ENCOURAGED.

Secretary Saunders Fowler, of Commercial Club, Tells of Some Letters He Receives.

More inquiries about Paducah as a city advantageous for factories have been received by the Commercial club in the last two months than at any time, according to Secretary Saunders A. Fowler. In each case information has been sent to the writers, and in the near future several representatives will visit Paducah with a view of locating their factories in the city.

Chief among the inquiries received is a letter from a large banking house stating that a company has been organized for the manufacture of steel products, and the promoters are looking for a location with facilities for cheap transportation, cheap labor and cheap fuel. With the two rivers Paducah has a good opportunity to secure the plant as the promoters have determined to locate in a city on the Ohio river. The manufacturers expect to take advantage of the Panama canal when completed, and for this reason have decided upon a location in the Ohio valley.

The plant will require 20 acres at the start and the promoters promise that from 150 to 200 men will be employed at the start, and in five years at least 1,000 workers. In ten years it is expected that the plant will use between 5,000 and 10,000 workers with an average payroll of \$100,000 a month. Proper information has been mailed the promoters by Secretary Fowler, and with a little pushing by the club the factory may be secured.

Investigating.
Several men have been in Paducah this week investigating the advantage of locating a foundry and machine shop in the city. The men are not asking for a bonus, but have the capital, and are looking for a favorable location. They expressed themselves as impressed favorably with Paducah.

Prospects of the glass plant being purchased and operated are bright, according to Secretary S. A. Fowler. He has letters on file from several operators inquiring for information about the sale of the plant. The sale will be held early in December, and it is certain the representatives will be in the city to place a bid for the plant.

Manufactures ironing boards, has written to the Commercial club, asking for data concerning Paducah. It is the purpose of the company to locate a branch of the factory east of the Mississippi river next spring. Correspondence has been entered into, and the company may send a representative to Paducah during the winter to make a personal investigation of the advantages of the city.

Another unique but successful factory may be landed in Paducah. Business men write that a factory for the purpose of manufacturing complete houses will be located in the Ohio valley and Paducah was being considered. The factory will need five acres, and will work about 100 wood

SOCCER FOOTBALL IS A GREAT GAME

Get Back People

In England, Leagues Contain
Two Dozen Teams.

Championship Matches Across the
Water Often Draw 75,000
People.

MOST POPULAR WITH BRITONS

In speaking of football in this country, the average American thinks of the game of Rugby, or, in other words, the game played at the colleges and high schools of the country. They are right; there is but one kind of football in the United States. There have been some attempts made to introduce another game known as association football or soccer.

These attempts have taken well in some places, especially where many Englishmen and Scotchmen live. The game of soccer is the popular English sport. Thousands of people gather to see even a match between two teams in England, let alone a match between two teams that represent different sections of the country or different countries.

The Englishmen are thorough believers in the English soccer game, says Walter Bowersall, the noted football expert. They think this is the only real form of football. Many of them have seen the college games, but express themselves as highly in favor of the English game. They back up their statements with good arguments for the game played across the pond.

They say the play is more open, and to those who understand it, is even more interesting than our own national game of baseball. In England they have both professional and amateur soccer teams. The professional teams are formed in leagues on the order of our professional baseball teams. The chief difference in these leagues is that there are many

Heart Trouble from Childhood

"I suffered with my heart from childhood; could not sleep on left side. Eleven bottles of Dr. Miles' Heart Remedy removed all these troubles, and brought complete recovery." MRS. H. C. CRUSE, San Francisco, Calif.

The life of the body is the blood. It runs on and on, carrying nourishment and gathering up impurities as long as life lasts—the heart makes it go. When the heart is weak it cannot do this, and dizzy spells, palpitation, short breath, indicate that it is doing its work imperfectly.

Dr. Miles' Heart Remedy strengthens the heart nerves and muscles, and restores normal action to the heart.

The first bottle will benefit; if not, your druggist will return your money.

more teams in a league than form an American baseball league.

There are often as high as twenty to twenty-four teams in a soccer league. A regular schedule is made out, and the teams play each other in turn at the grounds of the different teams.

The size of the crowds at an English soccer football match is the real feature. It is nothing unusual for 70,000 to 75,000 people to see one of the big championship matches. The best class of people in all England and Scotland gather to urge their favorites to do their best. Another feature of the crowds that gather to see the games in England is the fact that they all have seats.

The grounds are arranged with plenty of seating capacity. You never hear of thousands of people taking dinner and waiting from 7 o'clock in the morning until the game starts in the afternoon at an English park or athletic field, as was the case in Chicago a few weeks ago when the New York Giants played Chicago. The Englishmen declare that if a man knows when he goes to a ball park that he can be sure of getting a seat he will be more likely to go than if he feels sure that when he arrives late hundreds have been waiting for hours and he will have to stand and will see the game from a point where others are crowded close around him. This has a great effect on the size of the crowds in England.

Another argument advanced by the English in favor of their national pastime over American foot-

ball is the danger element. Few serious accidents happen to the players of soccer, while every game of the American style is marred by some kind of injury. The season in Scotland opens about August 1 and in England September 1, and lasts in both countries until April 30. The game is played in much longer halves than the American Rugby, each half being about forty-five minutes in length.

Of course, the American game does not last as long as the English, nor does the season extend over such a length of time, but the new rules in football are fast overcoming the many objectionable features of the game, and there are not so many injuries resulting from the game as there once were. The English game is played mostly by professionals, while the American game is played mostly by amateurs. This would also make a difference in the season.

The games of soccer are exciting. The English and Scotch professionals become proficient. They pass the ball from one to another with their feet with ease and precision equal to what the basketball players on our fastest teams do with their hands. The Queen's park is one of the greatest soccer grounds in England.

It was at this park that the International match was held. The best team from England and the best team from Scotland met, and the Scotch were victorious. It is said that more than 100,000 people saw the struggle. The three best known leagues, and soccer is a good game to League, Scotch League and the Celtic League.

Soccer is becoming more and more popular in this country every year, but it can hardly be expected to take the place of American Rugby. American Rugby is not played with any degree of success outside of the colleges, and soccer is a good game to play for those who have completed their college course and still desire to mix in some kind of football.

Leand Stanford University in California has adopted soccer instead of American Rugby, but it is the only college in the country to take such action. American football is "the" college sport, and will continue to be such as long as the facilities of the various colleges want it to be. It is played by some of the gymnastic classes in some of the universities, but in general does not take with the student body. If American football is abolished some time in the

NEW SKIN REMEDY STOPS ITCHING.

Skin Troubles of Infants and Adults
Quickly Cured.

When it is known that posam, the new skin remedy, will stop the tortuous itching attending eczema with first application and bring immediate relief and comfort to sufferers from all skin troubles, its merit will be instantly appreciated. On the tender skin of chafing infants, posam may be used with soothing and beneficial effects. It is applied externally, and its remarkable healing powers begin their work at once.

All skin diseases, including eczema, acne, herpes, rash, tetter, etc., yield readily to its remarkable curative properties. Occasional applications of posam, in small quantities, will quickly banish pimples, hives, blackheads, blotches, and will relieve and cure itching feet, scaly scalp, humors, etc. A special 50-cent package has been adopted for those who use posam for these minor troubles. Posam, as well as the regular two-dollar jar, is on sale at Gilbert's and other leading drug stores in Paducah.

An experimental supply of posam may be obtained free of charge by writing to the Emergency Laboratories, 32 West Twenty-fifth street, New York City.

future, then in all probability the colleges will resort to soccer as their only means of giving vent to their football desires, but not until then.

Soccer is played with a great deal of success in some of the larger cities in this country, and is continually growing in favor. In Philadelphia, St. Louis and Chicago some good soccer is played, and inter-city matches are played annually. In Chicago there is a league modeled after the organizations in England, and the teams play despite weather conditions. The games are fairly well attended, but interest is steadily growing, and from indications the English game will have a pretty fair hold in this country ere long.

In the near future a team composed of the best players in the different cities will be organized to play one of the leading professional teams in England, and this may happen this year, as the article of soccer played by some of the city teams is of high enough quality to warrant such a trip with a certain degree of success.

TARIFF REVISION

HENRY CLEWS COMES OUT FOR
LOWER RATES.

Declares Such Action Necessary for
the Welfare of the Man-
ufacturers.

Indianapolis, Ind., Nov. 12.—Before the Indiana Bankers' association Henry Clews, the New York banker, declared in favor of tariff revision. Among other things he said:

"A lowering of the present tariff is absolutely necessary to the welfare of our manufacturing interests and our foreign trade. Protection under it had very largely ceased to protect, owing to the excessive competition it has encouraged here. But the reductions made in it should be gradual and ample time—say three to six months—should be allowed importers to dispose of their stocks of raw and manufacturer merchandise imported under the existing tariff.

"Radical reductions would be distributing to trade and should be carefully avoided. There is safety in making haste slowly. Let us preserve the middle course—the golden mean.

"The effect of a judicious lowering of the tariff to one of only moderate protection would be to give our manufacturers cheaper foreign raw materials and so enable them to sell their manufactures at lower prices than they can now, both at home and abroad.

"Thus our export trade to the Orient and South America would be stimulated by our being enabled to compete there with England, Germany and other European countries where labor is comparatively much cheaper than here."

Back to the Land.

A real start in putting immigrants on the land has been made with a colony of Russian Jews near Hawkey, Wis., 150 miles from St. Paul, Minn., which is the work of one man, John Raffleson, who was compelled to give up factory work by an accident. He took to peddling and while going about into the country decided to make himself a mission-ary for drawing his co-religionists out of the cities and back to the soil.

The new colony is small, but it owns 920 acres, sold on long-time payments at \$10 an acre. It is co-operative in its plan and will have a co-operative store. Its officers, a president, vice-president, secretary and treasurer, and all heads of families, sit as a court in case of any dispute arising. Raffleson goes into Milwaukee and Sheboygan and persuades people to go out to the new colony. He has thus far succeeded in getting a nucleus of ten families, and says he wants only four more as

a beginning. These people are working as the old pioneers worked, clearing the land of timber and slowly beginning their planting. They will undoubtedly be equally successful—Charities and the Commons.

How to Get Strong.

P. J. Daly, of 1247 W. Congress street, Chicago, tells of a way to become strong. He says: "My mother who is old and was very feeble, is deriving so much benefit from Electric Bitters, that I feel it's my duty to tell those who need a tonic and a strengthening medicine about it. In my mother's case a marked gain in flesh has resulted, insomnia has been overcome, and she is steadily growing stronger." Electric Bitters quickly remedy stomach, liver and kidney complaints. Daily Thought.

"Joy does not depend on circumstances or condition. It is not the fruit of good luck or of fortune, or even of outward success."

Truth is not stranger than fiction. It is simply rarer.

The tennis cabinet will make way for the golf cabinet.

Andre's body has been discovered, anyhow. Some of those arctic explorers are almost as hard to find as the north pole.

The sensations of Emperor William when the balloon sailed over the Reichstag the other day would be well worth recording.

One very serious obstruction to the city giving the school any money, at least, during the present fiscal year, is the fact that the city hasn't any money that isn't already spent.

KENTUCKY.

The official returns, indicating that Kentucky went Democratic by less than 10,000, shows that if the Fifth district, comprising Louisville and Jefferson county, had come up with its estimated majority of 5,000, the state would have been with Missouri and Maryland in the Taft column. An unfortunate wrangle among those who should have been working together had much to do with it, and each side is blaming the other for the result. The presidential candidate visited Louisville and the organization was helped out with the work. Elsewhere the goods were delivered. The First district maintained its standing, in spite of the fact that it was left to take care of itself and McCracken county gained six delegates to the state convention by showing an increase of 600 Republican votes. Four years ago the county gained from 20 to 24 and eight years ago from 16 to 20. McCracken will henceforth have 30 state delegates, ranking well up in the lists and becoming that much more important.

OF COURSE, NOT.

Being relieved of responsibility for the character and personnel of federal employees in Kentucky, because the people ruled otherwise, and disengaging their attention temporarily from the anticipation of such spoils as would fall to their portion, should Kentucky fall into their hands again at the next election, leaders of that section of Democracy, which has no business other than politics, has enlisted the press of the party in the delightful occupation of apportioning the federal patronage of the state under the Taft administration.

Meantime Mr. Taft himself is nonchalantly knocking a hard rubber ball over the hills around Hot Springs, Va., declining to consider anything that pertains to politics; but that makes no difference with the opposition press. It has graciously relieved Mr. Taft of the necessity of thinking of political matters, so far as Kentucky is concerned, and if the opposition press in all the states, can the patronage over to a commis-

sion to handle for the president, he certainly need lose no flesh or time from golf during his administration.

It is a compliment to the gentleman, mentioned as comprising the "Big Five" of the opposition press of the state, but warranted to disturb the calm satisfaction of other gentlemen over the election. Not that we would intimate that the opposition press was malicious in thus singling out certain gentlemen as plotting together. O no! Certainly not! The ingenious press, which foresaw a landslide for Bryan, could never conceive the idea of arousing dark suspicions and secret hates among the Republican leaders of Kentucky; and stirring those, whose names were not mentioned in the Democratic roll of the elect, to disastrous activities and counter-plots for control of federal patronage.

No, no. They wouldn't do that. It is such an old trick. They would think of something newer, we are sure.

TO A BROTHER.

Coming from the pen of one who knew him personally, intimately, in their common field of labor, the following compliment to Mr. Henry Thompson, managing editor of the News-Democrat, and the tender tribute to the character of her, whom he mourns with a grief that is fresh and poignant, reflects a sentiment that goes further than all else that is of human origin to assuage the anguish of mortal despair. It is by Ed O. Leigh in the Bowling Green Messenger:

"The members of the Kentucky press will learn with deep sorrow of the great tragedy that has come into the life of Mr. Henry E. Thompson, managing editor of the Paducah News-Democrat, when death snatched from him the wife of his bosom. There was never a member of the craft more jealous of his honor than was Henry Thompson, and none who placed the dignity of the profession upon a higher pedestal. Mrs. Thompson was ever the silent influence that spurred her husband on to higher and nobler things, and her loss to him will be irreparable. May the God of the Christians comfort him!"

PATRIOTISM.

Patriotism and religion are two things—self-sacrifice and service—producing heroes and martyrs in times of great need. Little practiced in every day life. Few of us conduct our business and live our lives with the one end in view, to be of service to our fellow men. Few of us in our relations to the government, city, state and nation, willingly make sacrifice for the common good. Jury duty and election duty are begrudged the time of the best men in the land. Selfish, private interests hold them back.

One of the strangest perversions of man's relations to the state is apparent in the every day dealings between the individual and the government. Local dealers combine to fix a price and bid for public supplies. An outside concern offers the city a price far below the offer of the local dealers. If the city presumes to buy at the lowest price, a cry goes up that the city should buy of "tax payers."

That is the cry of universal graft. Patriotism—service—self-sacrifice—would have induced a local dealer to sell to the city at cost, or, at least, as low as an outsider would sell. Yet 90 per cent of the population would join in just such a cry: "buy of the tax payer."

Is it any wonder that politicians graft, when all the rest of us are doing it?

HONESTY.

Honesty is not an attribute of a man's relation to others, or a mere technicality of the law. Honesty is quality that exists, regardless of legal strictures and the presence of a party of the second part. If one should take a dollar from another's pocket and spend it or gamble it away, and the other should learn the truth, the law would say the one was a thief, the person losing the money would know he was a thief and he would know it himself. If one should owe another man a dollar and the debt was due and he had the dollar, but should spend it or gamble it away, the law would not call him a thief and the creditor might not be any the wiser; but what could he think of himself? After all, if a man hasn't enough self-respect to value his own opinion as highly as he does that of others, he is "rather hopeless morally."

Not speaking with absolute authority, but using our best judgment, we believe that many people have erroneously accepted "America" as the national anthem, and persist in standing when it is sung. It is a pretty custom, but the same people fail to get on their feet when "The Star Spangled Banner," which is the official national air is played. At retreat in the army, when dress parade is held, the sunset gun fired and the flag lowered, the band plays the "Star Spangled Banner," while the soldiers remain at "parade rest."

CURRENT EVENTS.

The Discriminating Voter.

A striking feature in a remarkable political campaign is the evident discrimination manifested by voters in casting their ballots.

"Shall the people rule?" was the question asked repeatedly by one of the candidates for the presidency. The answer must be counted an affirmative one after a scanning of the returns. Ohio, Indiana, Minnesota gave the

Republican candidate their electoral vote but chose their governors from the Democratic party. In Illinois and New York and Michigan the Republican governors elect ran far behind their tickets.

In the contests for state executive mentioned there were special and extraordinary reasons for the fight against the Republican nominees. These are generally understood. But the significance of the result is not changed thereby.

In Indiana congressional districts there was almost a revolution, the relative standing of the parties in the lower house being reversed. In many a local struggle party lines were entirely obliterated voters acting with an independence notable for its boldness.

The blanket sheet ballot demanded under the Australian system of voting tended toward the casting of straight tickets, owing to the danger of loss of vote because of faulty marking.

Even this did not prove a deterrent to individual discrimination within the polling booths. People are gradually becoming educated how to mark the clumsy sheet.

In a number of instances, such as that of the contest between Stone and Folk for the Missouri senatorship, there was an apparent triumph for machine methods against the desires of the better class of citizens.

A closer examination of the returns even there seems to show a distinct gain for the cause of the intelligent and discriminating elector.

Not the least interesting of the after thoughts of the voter is that which demands a separation of local issues from national by the return to the once common plan of holding elections at different times instead of massing all the "politics" in a single campaign.

Those who have been trying to develop sentiment in favor of more serious study of candidates find much to cheer them in the result of the 1908 elections.

The politicians have ruled in the past. There is increasing evidence that the people intend to take charge of matters in the future.

Stories Around the Town.

O. J. Jennings, editor of the Murray Ledger, who made the race for county clerk of Callaway county on an apparently unpopular ticket, takes his defeat philosophically and in his characteristic way tells many amusing incidents of his campaign. One of his best is a story he tells on another candidate who went down in defeat with him and who also represented the same faction in Callaway politics. According to Mr. Jennings, the issues were so clearly drawn that it was decided by candidates friendly to himself that they pool their campaign fund, so a meeting was called in Mr. Jennings' office and the matter was discussed. All the candidates present agreed on putting up a pro rata amount except one, whose name is withheld. This one was so confident that he had his race won by exceeding 500 majority he would not contribute. "What's the use of me spending money?" said he. "I already have my race won and I don't care to spend my money to help you fellows."

Well, the over-confident candidate was mistaken, like thousands of others have been, and when the votes were counted he was behind his only opponent. The next day he went around to Jennings, who was beaten several hundred votes, and began to talk contest and leading up to the subject declared that it would be cheaper for the defeated candidates to pool funds and make a general contest, and Mr. Jennings' reply was something like this:

"What's the use of me spending money? I got beat and have sense enough to know it, and I don't care to spend money to help you."

The following is told on Patrolman Lige Cross:

It is said that a few days ago the big policeman asked a crippled "moocher" what he was doing on the corner of Fourth and Broadway and the reply was made in rhyme as follows:

"Just a floating down the stream of life,

Just a killin' time;

Sometimes I get a nickle and sometimes get a dime."

Why Syrup Pepsin is Free

For more years probably than the age of the person reading this, Dr. W. B. Caldwell, of Monticello, Ill., has practiced medicine, and the one thing that forced itself on his mind was the urgent need of the human body for something that would scientifically regulate the digestive organs—the stomach, liver and bowels.

These years of study developed Dr. Caldwell's Syrup Pepsin, now recognized as the national safeguard of health. In thousands of good American homes. For twenty years it has been gaining friends, for it is today, as it always has been, the best laxative tonic for women, children and old folks, for these especially need a gentle, safe laxative tonic that is sure in results and does not gripe.

It is because the doctor has watched its good work for these years and believes in the merit of his remedy that he offers to send a free trial bottle at his own expense to anyone who writes him. You have simply to send your name and address. On the strength of what these free trial bottles have done—and thousands have been given away—Dr. Caldwell's Syrup Pepsin is today more widely used than any other American remedy for constipation, liver trouble, flatulency, biliousness, indigestion, sour stomach, dyspepsia, heartburn and similar disorders of the stomach, liver and bowels. It can be obtained of any druggist at 50 cents and \$1 a bottle, and a bottle will do you a hundred times the amount of good it costs you.

People like Mrs. M. L. Graves, 322 Oakwood ave., Toledo, O.; G. B. Houston, Bessemer, Ala.; William Ford, Goodman, Miss.; once sent for a free trial bottle and now have their entire family using it as needed.

If there is anything about your ailment that you don't understand, or if you want any medical advice, write to the doctor, and he will answer you fully. There is no charge for this service. The address is Dr. W. B. Caldwell, 507 Caldwell bldg., Monticello, Ill.

Premature Domesticity.

In an English novel of the eighteenth century the author thus refers to a certain woman: "She had reached the age of 35, an age beyond which no woman can hope either to feel or inspire deep affection."

In one of George Meredith's early novels he refers to a character as a woman "on the criminal side of 30."

A Boston woman in the last century, after reaching the age of 30, put on over her abundant natural hair, a false front and cap. These were the outward and visible signs of the matronly maturity she had reached.

She gave up at the same time all the gayer forms of social intercourse. She confined herself thereafter to the mild and elderly variety. She had "come out" into Boston society at 15. After two years of social gaiety she had married. At 30 she had lived the active part of her life. In accordance with the conventions of her time she settled down to a life of vegetating domesticity. She was not an exception. She was the normal woman of her day, registering her customs, just as a good thermometer registers the temperature—Ap-leton's Magazine.

PAPER FROM COTTON STALKS.

A recently invented system for reducing cotton stalks to a suitable form for the manufacture of paper is described in Farm and Ranch. According to this paper most of the difficulties which have hitherto prevented the accomplishment of this task appear now to have been solved. Says the writer:

"For many years experts have been engaged in devising some method for producing in a satisfactory manner paper from cotton stalks. With the new invention, it is claimed, farmers in the south will have great use for the discarded cotton stalks, which have hitherto been either thrown away or burned. It has been demonstrated that by the new process the heretofore waste product can be made into pulp and paper of a good commercial quality."

Comparing the cost of production of cotton stalk paper over that of straw paper, the writer finds that there is a difference of \$4.10 in favor of the cotton stalks. It is estimated that cotton stalk paper costs \$14 a ton, straw paper \$18.35, while ground wood as stock for paper manufacture costs from \$18 to \$20 a ton, and bleached sulfate costs from \$50 to \$60 for the domestic and considerably more for foreign stock. According to these figures the cost of the finished cotton stalk paper is less than the price per ton of the cheapest grade of ground wood pulp.

To the Odor Born.

A Chicago man who was a member of the committee on reception on the occasion of the visit of Prince Albert of Belgium a year or two ago, tells of his "highness" inspection of the stockyards.

The prince received every possible attention and was much interested in the magnitude of the industry and the various processes for disposing of the thousands of cattle and hogs slaughtered every day.

Just before he left he turned to the intelligent young man who had been told off to act as his guide and asked:

"Do you never suffer any inconvenience from the odor here?"

"What odor, your highness?" was the naive response of the young man. Philadelphia Ledger.

Pres. Gives Army Officers Hard Ride.

Washington, D. C., Nov. 13. "Everybody in."

It was the voice of President Roosevelt, commander-in-chief of the army. Sixty army officers who previously suffered the tortures of the president's riding test followed him, with many a pang for gold lace and uniforms, straight into Rock Creek. Striding down the bank into the chilly water, Mr. Roosevelt, without a smile, led the sixty.

Major General J. Franklin Bell, chief of staff, and an ardent supporter of the life which Theodore Roosevelt has made famous, was at the bottom of what has been about the toughest day some officers of the United States army have known since Santiago and other things. At the war college yesterday General Bell delivered a lecture on "Athletics in the Army." Knowing the interest of the president in such matters, he invited him to hear the lecture. So pleased was Mr. Roosevelt with the indoor enthusiasm of the officers that he determined upon a personal test.

WIDOWS AND REMARRIAGE.

Chances Not So Good As a Few Years Ago.

"Is the widow going out of vogue in the marriage market?" I asked the registrar of a populous district of London.

"Oh, decidedly," he replied. "You know that fewer people of every kind marry now than formerly. Thirty years ago, out of every hundred marriageable people about six could marry in any year; now the number is less than five. But the widow's chances have declined far more than the spinster's."

"I can only explain the matter clearly in figures. Thirty years ago the widow was extremely popular among men about to wed. She was always so since we first began to keep account of marriages, but from 1873 to 1877 she carried all before her."

"You must remember that there are many more spinsters than widows in the country at all ages up to 40, and especially up to 30 or 35."

"Now the great marrying age for women are from 19 to 28 or 30. Yet in spite of that fact at the time I speak of no fewer than ten out of every hundred of the year's brides were widows. What is the number now? Just six. The widow if 1906 is only half as popular as the widow of 1876."

"But it must not be supposed that the widow has dropped entirely out of fashion. Nothing of the kind. She is gradually losing her supreme position, but she still has a decided advantage over the woman who has never been married—and this at all ages."

"The young widow is preferred to the young maiden, and the middle-aged and elderly widows have it all their own way."

"I must give out figures again, for there is no other way of making a true comparison."

"Up to the age of 20 there are practically no widows. Just a few. In every thousand girls aged from 15 to 20 there are 985 unmarried, and so all the brides of this age, with the exception of two were spinsters. At 20 the widow begins to appear in force. From this age to 35 there is one widow in the population to each 263 unmarried women. The is lost among the crowd, one would think, and yet she goes off faster than the spinster."

"We are dealing with the year before last, the latest year about which the registrar-general gives his account. In this year no fewer than 128,000 maidens in their twentieth to twenty-fifth year married. It is the greatest marrying age."

"There were only 393 widow brides, but considering the small number of widows of this age in the country they were more favored by the bridegrooms than were the spinsters. If the spinsters were as popular as the widows 6,000 more of them would have got married."

"Curiously, while the bachelor shows a preference for the young widow, the widower apparently likes the spinster best," said my informant, who proceeded to supply figures that showed that from the age of 25 to the age of 55 widows continue to have better chances of marriage, although, as has been shown, these chances are lessening every year.—London Mail.

It is not amiss to make one or two soft flat puffs of your own hair in the center of the head, but the rows of puffs are as second class already as the pointed pompadour.

M'LEAN COLLEGE WILL PLAY HERE

Arrangements Made For Game Tomorrow.

Chess, Checker and Whist Club Will Meet Fast, Heavy Players on Gridiron.

SOME FOOTBALL QUESTIONS

The McLean College football team of Hopkinsville will play the Chess, Checker and Whist Club tomorrow afternoon at the ball park. The game was arranged yesterday afternoon by the captains and managers of the teams. The first date for the game was made for today but for some misunderstanding the game was called off. The McLean college up to this year was known as the South Kentucky college and under this name was defeated last year by the Collier football team. The Hoptown players will arrive in the city tomorrow morning at 9:30 o'clock and in the afternoon expect to defeat the C. C. and W. team in such a way as to wipe out the stigma of last year's defeat. A bunch of rooters will accompany McLean team here and will help by their cheering to make their team victorious. The Hoptown team is a heavier and faster team than the team that played here last year from the same school.

The C. C. and W. team will have the same lineup that defeated the Union University team last week in one of the cleanest and fastest of football ever played in Paducah. The home team feels confident that it can play the visitors tomorrow to a standstill, but the C. C. and W. players are aware of what it takes to do it.

The game will be called at 3:30 o'clock and the field is in excellent condition. The rains this week have made the ground solid and the dust is no more. The largest crowd that has ever witnessed a football game in Paducah is expected to turn out. The weather is perfect and everything promises for a fine game.

Mr. Charles S. Bookwalter, who is connected with the West Kentucky Coal company, of this city, and was formerly on the National Rules committee on football, will referee the game.

The home team will put in several hours of signal practice tonight at the ball park.

A Warm Game.

Jackson, Tenn., Nov. 13.—The best game to which local football fans have been treated this season occurred yesterday afternoon on the Union University Athletic field when the big Southern Presbyterian University squad of Clarksville, defeated the local Varsity team in an 8 to 0 battle. The Clarksville team of eleven husky, experienced and highly trained players fresh from their victories of 9 to 5 with the University of Miss., the Miss. A. & M. College 9 to 5 and their great game with Vanderbilt, came to Jackson with the expectation

A Most Valuable Agent.

The glycerine employed in Dr. Pierce's medicine greatly enhances the medicinal properties which it extracts from native medicinal roots and holds in solution much better than alcohol would. It also possesses medicinal properties of its own, being a valuable demulcent, nutritive, antispasmodic and anodyne. It adds greatly to the efficacy of the Black Cherry bark, Bloodroot, Golden Seal root, Stone root and Queen's root, contained in "Golden Medical Discovery" in subduing chronic, or lingering coughs, bronchitis, throat and lung affections, for all of which these agents are recommended by standard medical authorities.

In all cases where there is a wasting away of flesh, loss of appetite, with weak stomach, as in the early stages of consumption, there can be no doubt that glycerine acts as a valuable nutritive and aids the Golden Seal root, Stone root, Queen's root and Black Cherry bark in promoting digestion and building up the flesh and strength, controlling the cough and bringing about a healthy condition of the whole system. Of course, it must not be expected to produce miracles. It will not cure consumption except in its earlier stages. It will cure very severe obstinate, hacking chronic coughs, bronchitis, croup, whooping cough, and all other throat troubles with promptness. In acute coughs it is not so effective. It is in the lingering hacking coughs, or those of long standing, even when accompanied by bleeding from lungs, that it has performed its most marvelous cures.

Prof. Finley Ellingwood, M. D., of Bennett Med. College, Chicago, says of glycerine: "In dyspepsia it serves an excellent purpose. Holding it in solution, it is one of the best manufactured products of the present time in its action upon convoluted, disordered stomachs, especially if there is ulceration or catarrhal gastritis (catarrhal inflammation of the stomach) or excessive gastric (stomach) acidity."

"Golden Medical Discovery" enriches and purifies the blood, cures hives, rashes, eruptions, scurvy swellings and old sores, or ulcers.

Send to Dr. R. V. Pierce, of Buffalo, N. Y., for free booklet telling all about the medicinal roots composing this wonderful medicine. There is no alcohol in it.

"cutting up" the Union squad with perhaps a 50 to 0 score and with the playing of the game started in "mop up" with the Union lads, practically all of whom are playing their first season.

A Hoptown Protest.

The Hopkinsville New Era publishes the following:

Editor New Era: I have no desire to be drawn into a newspaper controversy, especially of a subject which most of our readers are not interested, but in justice to our boys I cannot allow the ten reprinted in yesterday's paper from the Paducah Sun regarding the recent game between the two teams to go unchallenged. To say nothing of the unsportsmanlike conduct of Mr. Evans in appealing from the decision of an official upon whom he had agreed as referee of the game, to an agent outsider, who did not see the game; it may be questioned whether the account of the play given to Mr. McGugin was a true, impartial account. Judging solely by the account in the Sun, this account was not true and the decision turns wholly on the incorrect statement that "Wilhelm was downed in his tracks." If this were true, Paducah's contention is correct, beyond doubt; but there are a number of witnesses to prove that he started to run with the ball and was tackled by one of our men before crossing over the goal line into the field of play. His running with the ball made the safety possible, which gave the two points in dispute. Mr. Evans seems to have misinformed Mr. McGugin regarding the play, and hence the opinion of the latter is of no weight.

In insisting on the play being called a "safety" and counting as two points, I was convinced that I was right in my interpretation of the rules, an interpretation that was concurred in by Mr. Davis the referee of McLean college, and Mr. Foster, the coach of the college team, both of them unbiased, disinterested persons, and both of whom actually saw the play. I have not the least desire to claim anything to which I feel that we are not fully entitled but my own mind is perfectly clear on this point.

Mr. Evans knows, or ought to know that "the decision of the referee upon all matters not specifically designated under the duties of other officials shall be final." Rule 28, section 2; hence an appeal to any person who was not a witness of the game as an official was entirely improper. The referee having decided a "safety" the score stands 10 to 2, despite Paducah's claim to the contrary.

Yours truly,

C. H. H. BRANCH.

This marks the end of the state dispensary.

I. C. AND T. C.

REPORTED THAT CONFERENCE WILL BE HELD.

Vice President and General Manager Harriman Went to Nashville.

It is reported in railroad circles that the Illinois Central Railroad company may at an early date again take over the properties of the Tennessee Central, and the report is given some coloring by the visit of prominent I. C. officials to Nashville, where it is understood a conference will be held today between officials representing the two roads.

Railway Officials Meet.

Nashville, Tenn., Nov. 13.—Officials of the Illinois Central, Southern and Tennessee Central Railroad companies are in the city for the purpose of holding a meeting at which time the adjustment of old claims of the three systems will be brought up. General Manager F. B. Harriman and Vice President I. G. Rawn, of the Illinois Central, and Vice President C. H. Acker, of the Southern railway, with an arbitrator will represent the Southern, while an arbitrator from St. Louis will represent the Tennessee Central. The meeting will be held this afternoon or tomorrow morning. The purpose of the meeting is to adjust old claims growing out of the operation of the Tennessee properties by the Illinois Central and the Southern railway. Improvements were made under the operation by the two big systems and these improvements, which were in the nature of roadway, new rails, new stations and improved equipments. All roads have claims which will be adjusted and some decision reached regarding the apportionments and settlement of these old matters.

A Paying Investment.

Mr. John White, of 33 Highland Ave., Houghton, Maine, says: "I have been troubled with a cough every winter and spring. Last winter I tried many advertised remedies, but the cough of Dr. King's New Discovery; before that was half gone. This winter the same happy result has followed; a few doses once more banished the annual cough. I am now convinced that Dr. King's New Discovery is the best of all cough and lung remedies." Venezueian Army and Navy
Preparation.

Defend Strategic Points—Merchants
Receive Heavy Importations of
Merchandise.

THE MOUNTAIN BATTERIES

Caracas, Sunday, Nov. 16.—With
the placing in position of mountain
artillery at various strategic positions
about La Guaira, so as to prevent any
attempted landing from Holland's war
ships if they come to Venezuela with
hostile intent, President Castro has
now completed his preparations for the
defense of Venezuela's principal
seaport, and the gateway to Caracas.

Merchants Prepared.

Not only have the Venezueian
army and navy made preparations for a
blockade, but also the merchants of
both La Guaira and Caracas. All the
salt in La Guaira, and the entire
stock of the flour mill has been ac-
quired and are unusually large im-
portations of rice and other provisions
has been received from Europe
by principal importers, who instructed
their European connections to
make heavy shipments if they were
convinced, after making an investi-
gation, that Holland meant business.

The merchants of La Guaira re-
ceived their greatest shock which at
the same time confirmed their belief
that affairs were coming to a crisis,
when on Wednesday the collector of
customs issued an order to the mer-
chants that by the 31st, the date set
by the Netherlands government for
the revocation of Castro's trans-shipment
decree, they would be compelled to
remove all of their merchandise from
the custom house and pay all
duties by that date. Stagnation in all
lines of trade has been the result of
the present uncertainty and great
losses will develop during the period
of expectancy.

BUILDINGS

PADUCAH IS BEGINNING TO FEEL
EFFECTS OF THE BOOM

Contractor Tells of Some Projects Un-
der Way and Some Others That
Are Contemplated.

At last Paducah is feeling the
ground swell from that the great
wave of prosperity that started, full
and fruitful of promise, over the
country, the day following Taft's
election and it is thought that ere
very long we shall have a big meas-
ure of more of those waves.

"I expect, and the present indica-
tions will bear me out in the prophecy,
to see more work done in Paducah,
in the nature of new buildings and
repairs to old ones, than we have
had in the entire summer," said Con-
tractor J. W. Lockwood today.
"Work is opening up in a way to
make glad the heart of every con-
tractor and carpenter in Paducah,
and I fully expect that it is but the
forerunner of the good times ahead."

PHARMACIST

Tells Facts About Caffeine in Coffee.

"About twelve years ago I stopped
coffee," writes a Colo. man, "and be-
gan Postum. As a result, instead of
being a confirmed dyspeptic as I was
for many years, I enjoy good health
and fine digestion.

"I formerly weighed 115 lbs., now
140. My waist measure was 29, now
36 inches. Not only this, but I enjoy
Postum and my meals, while for years
eating was an annoyance and often a
torment.

"Like an old whisky toper I always
thought I had to have my coffee and
then always felt its ill effects in my
stomach and on my nerves.

"Now I have so completely lost my
taste for Coffee, that recently, when a
cup was given me by mistake and I
tasted it, I found it nauseated me.
On the other hand I not only like the
healthful effect of Postum, but the
taste is peculiarly agreeable to me."
"I have tried other cereal drinks
but always come back to Postum.
Realizing as I do, the evil effects
from the poisonous alkaloid in coffee,
and being a Postum Pioneer, I am a
very successful missionary.

"One man, a school superintendent,
from my recommendation, has had
quite as happy an experience with
Postum as I have had. My wife has
also found great benefit from Postum,
as coffee was the only thing which
disagreed with her stomach at table."

"Being a graduate in pharmacy I
know the alkaloid—caffeine—in cof-
fee is a poisonous drug. As there is
no drug in Postum I naturally drink
it and recommend it to others."
"There's a Reason."

BEWARE OF THE
BRIGHT'S DISEASE

Says Lame Back and Urinary
Troubles are the Danger
Signals.

More people succumb each year to
some form of kidney trouble than any
other cause. The slightest form of
kidney derangement often develops
into Bright's kidney disease, diabetes
or dropsy. When either of these dis-
eases are suspected the sufferer should
at once seek the best medical atten-
tion possible. Consult only a good,
first-class physician.

There are many of the lesser sym-
ptoms of kidney trouble which can be
treated at home is stated by a well-
known authority. For some of these,
such as backache, pain in the region
of the kidneys, weak bladder, fre-
quency, (especially at night) painful
scalding and other urinary troubles,
try the following simple home reme-
dy: Fluid Extract Dandelion, one-
half ounce; compound Kargon, one
ounce; Compound Syrup Sarsaparilla,
three ounces. These simple ingredi-
ents are harmless and can be obtained
at any good prescription pharmacy
and anyone can mix them by shaking
well in a bottle. The dose for adults
is a teaspoonful after each meal and
again at bedtime.

There is no more effective remedy
known to relieve all forms of rheuma-
tism, because it acts directly upon
the kidneys and blood. It cleans the
clogged up pores in the kidneys so
they can filter and strain from the
blood the poisonous uric acid and
waste matter which if not eliminated
remain in the blood, decompose and
settle about the joints and muscular
tissues causing the untold suffering
and deformity of rheumatism.

Backache is nature's signal notify-
ing the sufferer that the kidneys are
not acting properly. "Take care of
your kidneys," is now the physician's
advice to his patients.

October in the history of the city,
and from all sections of the country
similar reports are coming in. New
York is doing a great deal more con-
struction work than it was a year ago
and the farwestern cities are show-
ing up with remarkably big increases
in new buildings.

It is but natural that Paducah
should experience the same thing,
and laboring men and merchant-
banker, and professional man will
welcome its advent. Mr. J. W. Lock-
wood's firm, Lockwood & Tuttle,
will probably get the contract for
the flats the Misses Morton will
erect on Broadway, between Fifth
and Sixth street, which entails an ex-
penditure of about \$13,000. They
are now working on the new build-
ing at Metropolis for the City Na-
tional Bank, which will cost \$14,000,
and have other smaller jobs. Gus
Lockwood will start to work in a few
days on the flats he will build for
Mrs. W. A. Gardner on the property
she purchased from Mrs. Manie Cobb
on Broadway, adjoining the Morton
lot. These flats will cost \$7,000.
And, there are any number of other
houses being planned, and now un-
der construction, one of which is the
residence being erected at Broadway
and Sixteenth street, for Dr. Frank
Boyd at a cost of \$10,000.

Rush For the Ways.
Just as soon as the rivers get more
water in them, work on the marine
ways will start with a rush. The
plant is quite busy just now, but it is
nothing to compare to what will come
here as soon as the rivers become
navigable. The winter is always the
busiest season with the local ship-
building plants, much of it coming
from boats that come out of the
northern rivers to tie up here for the
winter.

COMPROMISE

EFFECTED IN THE KELLY AND
WILLIS LAWSUITS.

\$1,554.70 to Be Paid to Mr. Kelly
and Both Suits to Be Dismissed.
Kelly Employed in Will Case.

The suit filed some months ago by
John W. Kelly in the Trigg circuit
court against the heirs of Mrs. Bessie
Willis, deceased, and the suit filed in
the federal court at Paducah by the
Willis heirs against Mr. Kelly, were
both settled Tuesday, the settlement
being made at Princeton, where the
attorneys for both sides met by agree-
ment. C. K. Wheeler, of Paducah,
and Senator Dancy Forte, of Clark-
sville, representing the Willis heirs in
the matter. By the terms of the set-
tlement Mr. Kelly is to be paid \$1-
554.70, and the suit in the federal
court is to be dismissed next Monday
and the suit in the Trigg circuit court
will be dismissed at the regular term
in January.

Mr. Kelly was employed by the
Willis heirs to assist in the suit filed
recently by other heirs of Mrs. Mil-
dred D. Johnstone, whereby they seek
to break the will of Mrs. Johnstone,
which gave to the Willis heirs the
large Johnstone farm near Golden
Pond and practically the entire
estate belonging to Mrs. Johnstone at
the time of her death—Cadiz record.

RUSSIA AWAITS
AUSTRIAN NOTE

Which Will Determine if Cor-
rence of Power.

Pervades Russian Foreign Affairs
Office Balkan Situation Is at
Acute Stage.

THE AIR OF OUTWARD CALM.

St. Petersburg, Nov. 13.—Although
an air of outward calm is maintained
at the Russian foreign office, the
Balkan situation has now reached an
acute stage, where everything de-
pends upon the nature of the note
which is expected from Vienna to-
morrow and the outcome of the me-
diation which Russia, France and
Great Britain have undertaken at
Belgrade, at Austria-Hungary's re-
quest, with a view to limiting the
belligerent activity of Serbia.

If the mediation is not successful
war is recognized as a possibility in
authoritative circles. Austro-Serbian
relations are too strained, it is be-
lieved to permit the present condi-
tions to continue indefinitely.

The Austrian note will definitely
outline the attitude of that govern-
ment regarding the discussion of the
annexation of Bosnia and Herze-
govina and possibly compensation to
Serbia and Montenegro, and the na-
ture of the note will determine wheth-
er or not an international congress
can be held.

Federal Council Meets.

Berlin, Nov. 13.—The five mem-
bers of the foreign affairs committee
of the federal council held a meeting
today and discussed recent events.
The assembling of this committee is
of very rare occurrence, and much
interested speculation was aroused
by the intimation that the meeting
was called with the idea of taking
some step to prevent the emperor
from pursuing an independent course
in the foreign affairs of the empire
in well informed circles it is af-
firmed, however, that the committe-
men did nothing more today than
read certain papers relating to the
Casablanca incident.

Today has been full of rumor and
surmises concerning what attitude
Emperor William would adopt toward
Chancellor Von Buelow, the re-
lestage and the public sentiment at
large. His majesty spent the day
fox hunting. Prince Von Fuersten-
burg, his most intimate friend, is
with him. There is satisfaction that
he is with the prince, whose influ-
ence is regarded as restraining and
wise. The prince is the only man
who seemed to speak plainly to the
emperor. Although the prince is of
aristocratic descent, he is not a reac-
tionary and is looked upon as dis-
tinctly modern in political views.
There is still considerable doubt as
to whether or not Buelow will re-
main in office and free mention is
made of his possible successor.

The names of Minister of the In-
terior Bethmann-Hollweg and Prus-
sian Minister of State Rheinbaben
are most frequently heard in this
connection.

Beulow May Yet Retire.

Berlin, Nov. 13.—The Lokal An-
zeiger says that Buelow intends to
proceed to Donaueschingen, where
the emperor is hunting to report on
the reichstag debate on interpellations.
The paper states that the
chancellor, however, is waiting to
learn whether or not his speech is
satisfactory to his majesty, intimat-
ing that he will remain in the of-
fice if the emperor endorses his state-
ments.

The Tageblatt believes that Bue-
low's resignation is impending and
calls attention to the report that the
chancellor has received a telegram
from the emperor which has increas-
ed his desire to retire.

Child—Suppose I called you a
mean old pig, what would happen?
Governess—I should tell your fa-
ther, and he would punish you.
Child—nd if I only thought it.
Governess—No harm so long as
you don't say it.
Child—Then I only think it—

La France
SHOE for
WOMEN
\$3.00 to \$4.00

GOOD TO
LOOK UPON—
A COMFORT TO WEAR

The women of America
are year by year becom-
ing more and more at-
tached to La France shoes
—a shoe made in strict accord-
ance with the latest Parisian styles
adapted to the uses and high standards
of the American women.

Women are attracted by this shoe first because of its refined and beau-
tiful appearance. Then they find—often much to their surprise—that no
other shoe they ever wore was so remarkably comfortable or held its shape so well.

This is indeed a rare combination to be found in one shoe—due to new and im-
proved methods of leather selection and workmanship.

More description does not do this shoe justice—trying it on is a revelation.
We hope you will come in and try on a pair of La France shoes, as we
think they will give you some entirely new ideas.

the effect of the drouth which has
prevailed over this section for ninety

New Oliver No. 5
Sets Swiftest Pace Ever
Known in Typewriter Selling

The wonderful
new model, Oliver
No. 5, has taken
the market by
storm.
Its reception by
the public has ex-
ceeded in enthu-
siasm anything
we had dared to
anticipate.
Employers and
stenographers alike have welcomed it
as the one machine that answers the
multiplied needs of the hour.
The cry is for Speed! Speed!—
and the Oliver responds.
The demand for Durability is filled
by the sturdy, steel-clad Oliver.
To call for a writing machine that
will do many things, and do each of
them equally well, the Oliver answers
with its unexampled versatility.
—Its visible writing saves the strain
on eye and brain.
—Its legibility lends beauty to its
work. The letters that bear the Oliver
imprint are the letters that seem to
speak.

Oliver No. 5 fairly bristles with new
and exclusive time-and-money-saving
features. We have space to mention
only a few of the more important
ones.
—Disappearing Indicator shows exact
printing point.
—Balance Shifting Mechanism saves
operative effort.
—Line Ruling Device is fine for tabu-
lated work.
—Double Release doubles conveni-
ence.
—Non-Vibrating Base insures sta-
bility. Yet with all of these added
improvements, we have still further
simplified the Oliver—by fusing
brass with metal.
Oliver No. 5 is a dream come true—
the dream of Thomas Oliver crystal-
lized into this wonderful mechanism
of shining steel that embodies every
possible requirement of a perfect writ-
ing machine.

FOR SICK CHILDREN.

Mrs. Rose Hawthorne Lathrop, Who Has Done So Much Good Among Sick Children of New York, Recommends Vinol.

"In my work among the destitute sick I give Vinol in many cases where it would be impossible to give cod liver oil in any other form, on account of the extreme weakness of the patient's stomach. I have known Vinol to restore appetite and infuse new life in many cases of sick women and children when everything else failed. Little children seem to delight in taking Vinol."

The reason Vinol is so far superior to old-fashioned cod liver oil and emulsions is because it contains all the medicinal, body building elements of cod liver oil actually taken from fresh cods' livers with the disagreeable oil eliminated, and tonic iron added.

As a body builder and strength creator for old people, weak women, delicate children, after sickness and for all pulmonary troubles, Vinol is recommended by over 5,000 of the leading druggists of the United States. Your money will be returned on demand if Vinol fails to benefit.—W. B. McPherson, Paducah, Ky.

GRAND JURY

DOES NOT FIND CASE AGAINST UNIVERSITY.

Lexington, Ky., Nov. 13.—The grand jury made the following report on the disappearance of young Smith: "We, the grand jury of Fayette county, Kentucky, respectfully report to the court that so far as we could we have investigated those matters with reference to which we were charged, and have from time to time reported to this court indictments where the facts, in our opinion, justified it.

"We have spent a great deal of time in the investigation of the disappearance of Willis E. Smith, a student of the State University. In the course of our investigation we have also tried to run down all newspaper stories and rumors, but in no case have we found any testimony to substantiate such newspaper statements or reports.

"In all cases we have traced such stories and reports back to some person who had merely expressed his opinion of the possible solution of the mystery.

"We have been able to find no witness who ever saw Smith on the night of his disappearance, after he left his boarding house. We recommend that the investigation be continued by the detective force of the city and county, and the matter be again submitted to the grand jury."

COOPERAGE FIRE
LOSS PREVENTED

Limited to Four Stacks of Stave Stock.

Good Work of Department Against Heavy Odds, Early This Morning.

SLIGHT ACCIDENT TO HACK.

Good work of the fire department prevented a disastrous fire in the yard of the Paducah Cooperage company, 2350 Meyers street, this morning at 12:10 o'clock. As it was only four stacks of heading were destroyed with a loss of about \$500, covered by insurance. In the yards, across Meyers street from the factory, about \$10,000 worth of material was stored, but the wood being damp from the recent rains prevented the flames spreading until the fire companies reached the fire. The cause of the fire is unknown, but it is thought that craps shooters or hunters may have built a fire near the edge of the stacks of staves, and the wood caught from this.

The blaze was discovered by the night watchman and almost simultaneously a telephone alarm and an alarm from box No. 53 were given. The hose wagon and the steamer from station No. 2, and the hose reel and truck from station No. 4 responded. The run from the No. 2 station is 1 1/4 miles. When the No. 2 company reached the fire the chemical engine was placed to work on the fire to prevent its progress, while the firemen dragged off the entire 1,000 feet. The hose was not long enough to reach from the water plug to the fire, but a short cut was found and the water turned on. The water pressure was excellent and in a short while the last blaze was out. Fire Chief James Wood arrived from the station and seeing the danger and distance from a water plug, he put in a second alarm, and the Central hose wagon responded, making the run of nearly 2 1/4 miles in quick time.

Eight stacks of the material were on fire, but only four were destroyed. The steamer had steam up, but the city water pressure was sufficient for the fire.

Mr. Blaine Kilgore, superintendent of the Cooperage company, hurried to the fire in a cab. Frank Lofter, colored, the driver of the hack for the Palmer Transfer company, drove into the ladders of the truck which was standing in the street, and the top of the back was damaged. Fortunately neither Mr. Kilgore nor the driver were injured.

HEALTH RULES

ISSUED BY DEPARTMENT OF THE CITY.

To Protect People From Spread of Contagious Diseases—Regarding Schools.

The following orders have been issued by the Paducah health department: That no more funerals can be

attended by friends or the public where the cause of death is from some contagious disease. Only the immediate family and near relatives of the deceased will be permitted to attend.

That as long as the city health department does not close the school, it is better for the children to attend than to stay out of school, because every precaution has been taken to prevent the spread of contagious diseases.

Two new cases of diphtheria developed yesterday, both cases are three-year-old children. One case in Mechanicsburg and the other case in Rowlandtown.

The board of health has ordered all the school buildings fumigated and the work will commence this afternoon after school hours and will be finished tomorrow.

The city health officer recommends that the parents of school children have their children use a good antiseptic gargle each day. By doing this the throat can be kept in good condition and the children will not be nearly so apt to become ill with any contagious disease.
